ABOUT THE ALBUM

Mary Carrick is a dynamic singer whose agile voice and evocative interpretation harnesses an impressive stylistic range. Her debut album, *Let's Fly*, is a masterful compilation of a varied yet cohesive palate of songs.

Selections include great American standards, familiar and unfamiliar musical theater, jazz, folk and country, reimagined to entrance any listener. With tight arrangements, unexpected twists and simplicity, *Let's Fly* centers around themes of wanting and yearning for what fills us, completes us and makes us feel alive. Mary takes listeners through stages of love, desire and life's hills and valleys - posing questions, weighing options and taking risks.

Let's Fly, with the guidance of artistic producer & music director, J. Gawf, showcases Mary's gift for truthful storytelling and an impressive vocal versatility that is bold, personal and breathes honesty. Mary delivers everything from intimate, delicate and haunting to shimmering, lyrical sounds capped with a powerhouse belt.

Artists on the album come from the genres of opera, rock, musical theater, country, jazz and blues. J. is known for his work in opera and musical theater, is a sought-after vocal coach, and is at the center of the arrangements. Musicians include J. (piano), Baton-Rouge based Eric Andries (jazz piano), Todd Brooks (piano), JB Ferguson (drums & percussion), Mark Haar (bass) and Kate Williams (accordion).

Mary is based in Omaha, NE. *Let's Fly* was recorded and mixed by Marty Bierman at DreamTree Recording and mastered by Focus Mastering (both of Omaha).
